EPEX SPOT Webinar
17 April 2025

Confidentiality disclaimer

All information disclosed during this webinar is strictly confidential and cannot be shared with any third party without the prior authorisation of EPEX SPOT.

Agenda

- 01** **Welcome & Introduction**
- 02** **Feature Spotlight**
 - Web Client updates and improvements
- 03** **Member testing and readiness**
- 04** **Q&A Session**

Your panelists

Marko BEZBRADICA
MATS Project Manager

Audrey GIFFARD
Senior Marketing Manager

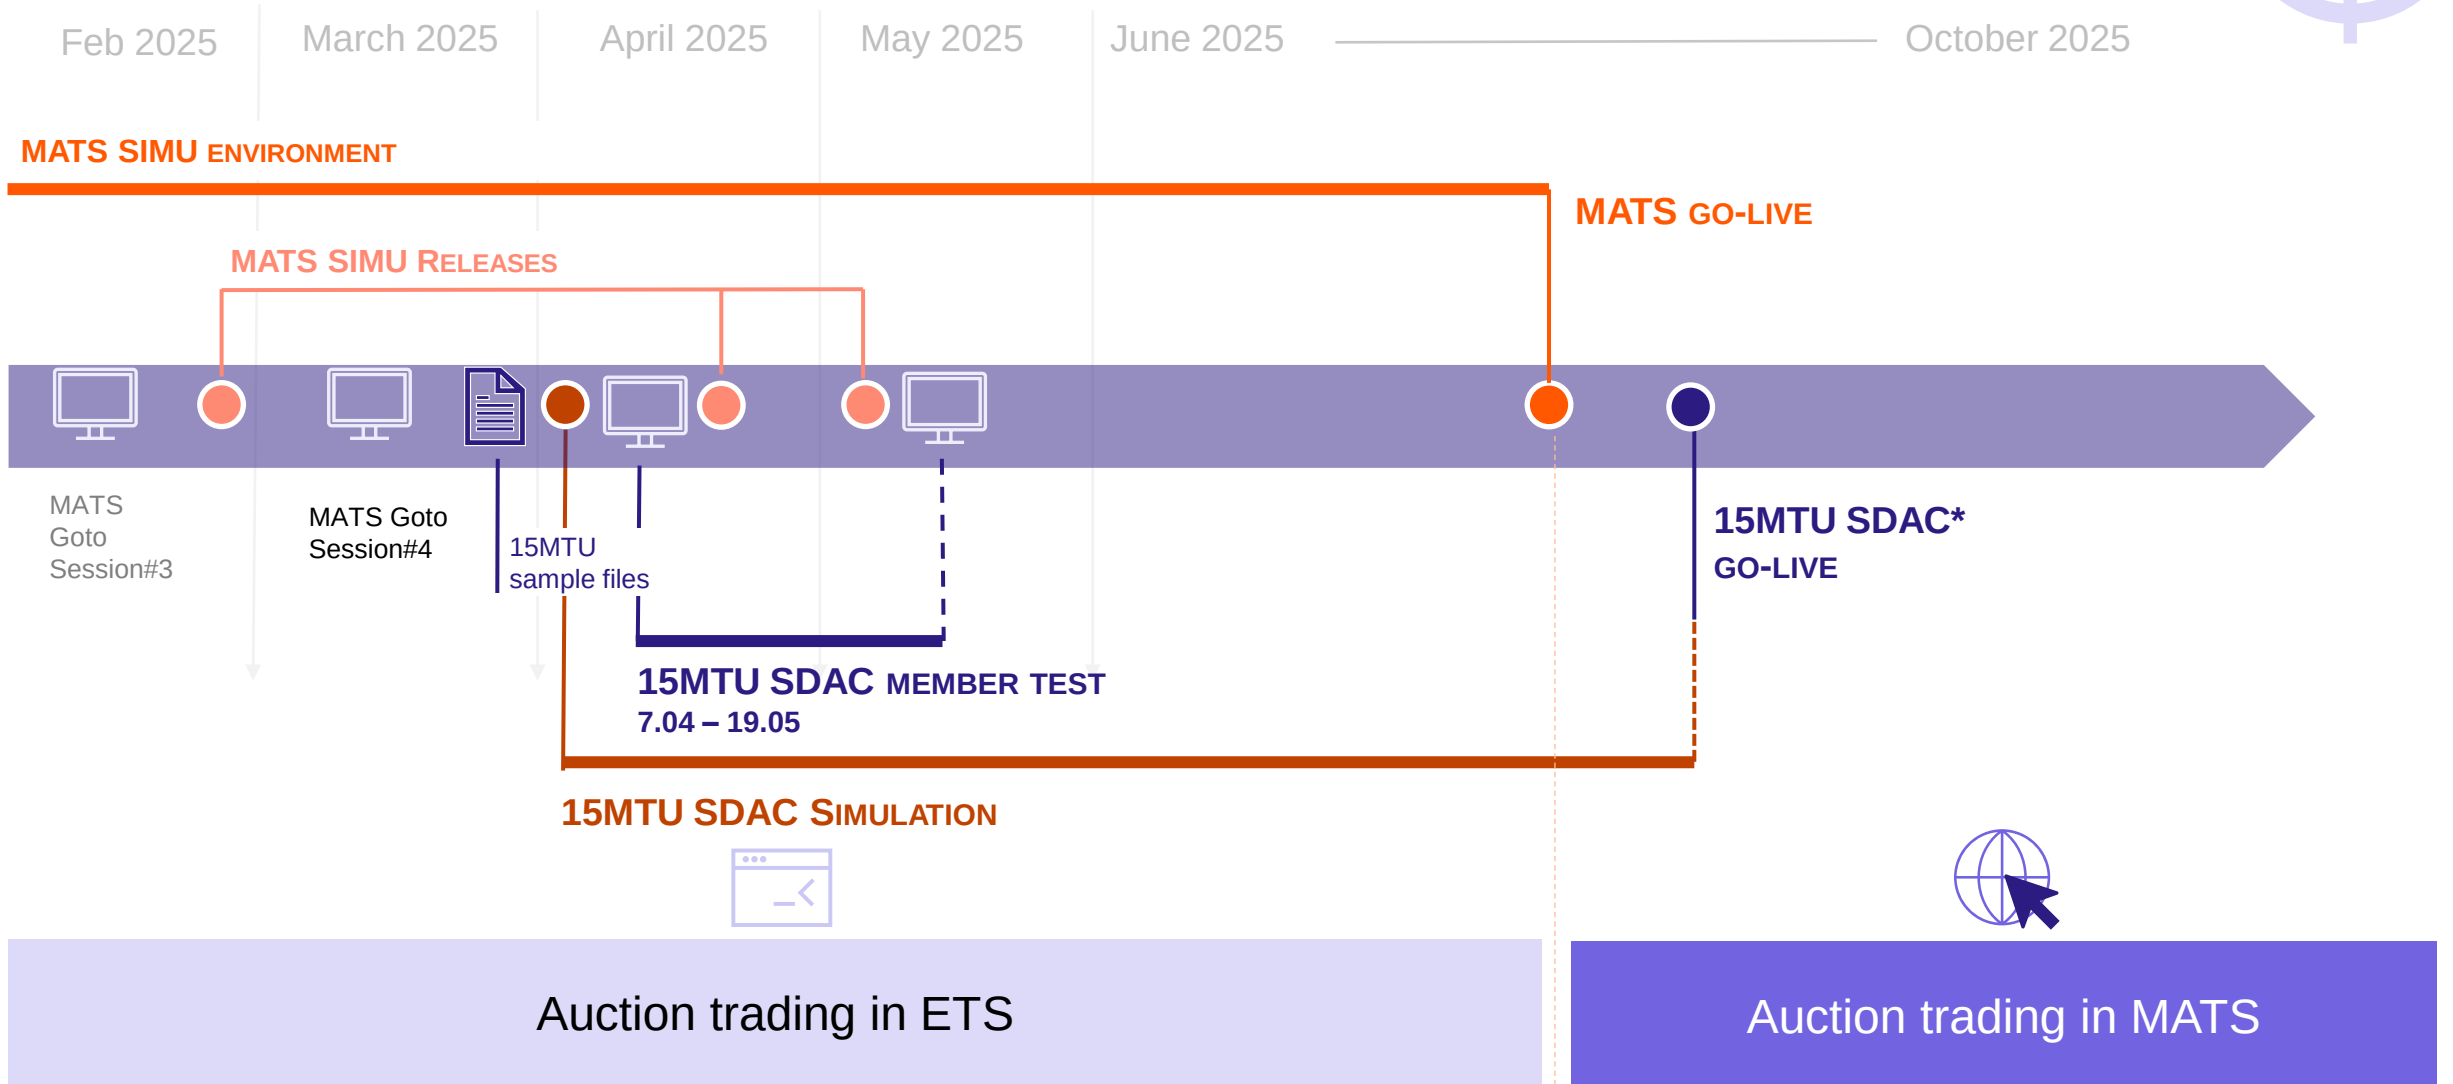

Also,
Luisa NEUBERT, Senior Sales & Customer Event Coordinator
Elena BOSISIO , Sales & Customer Event Coordinator

Welcome & Introduction

01

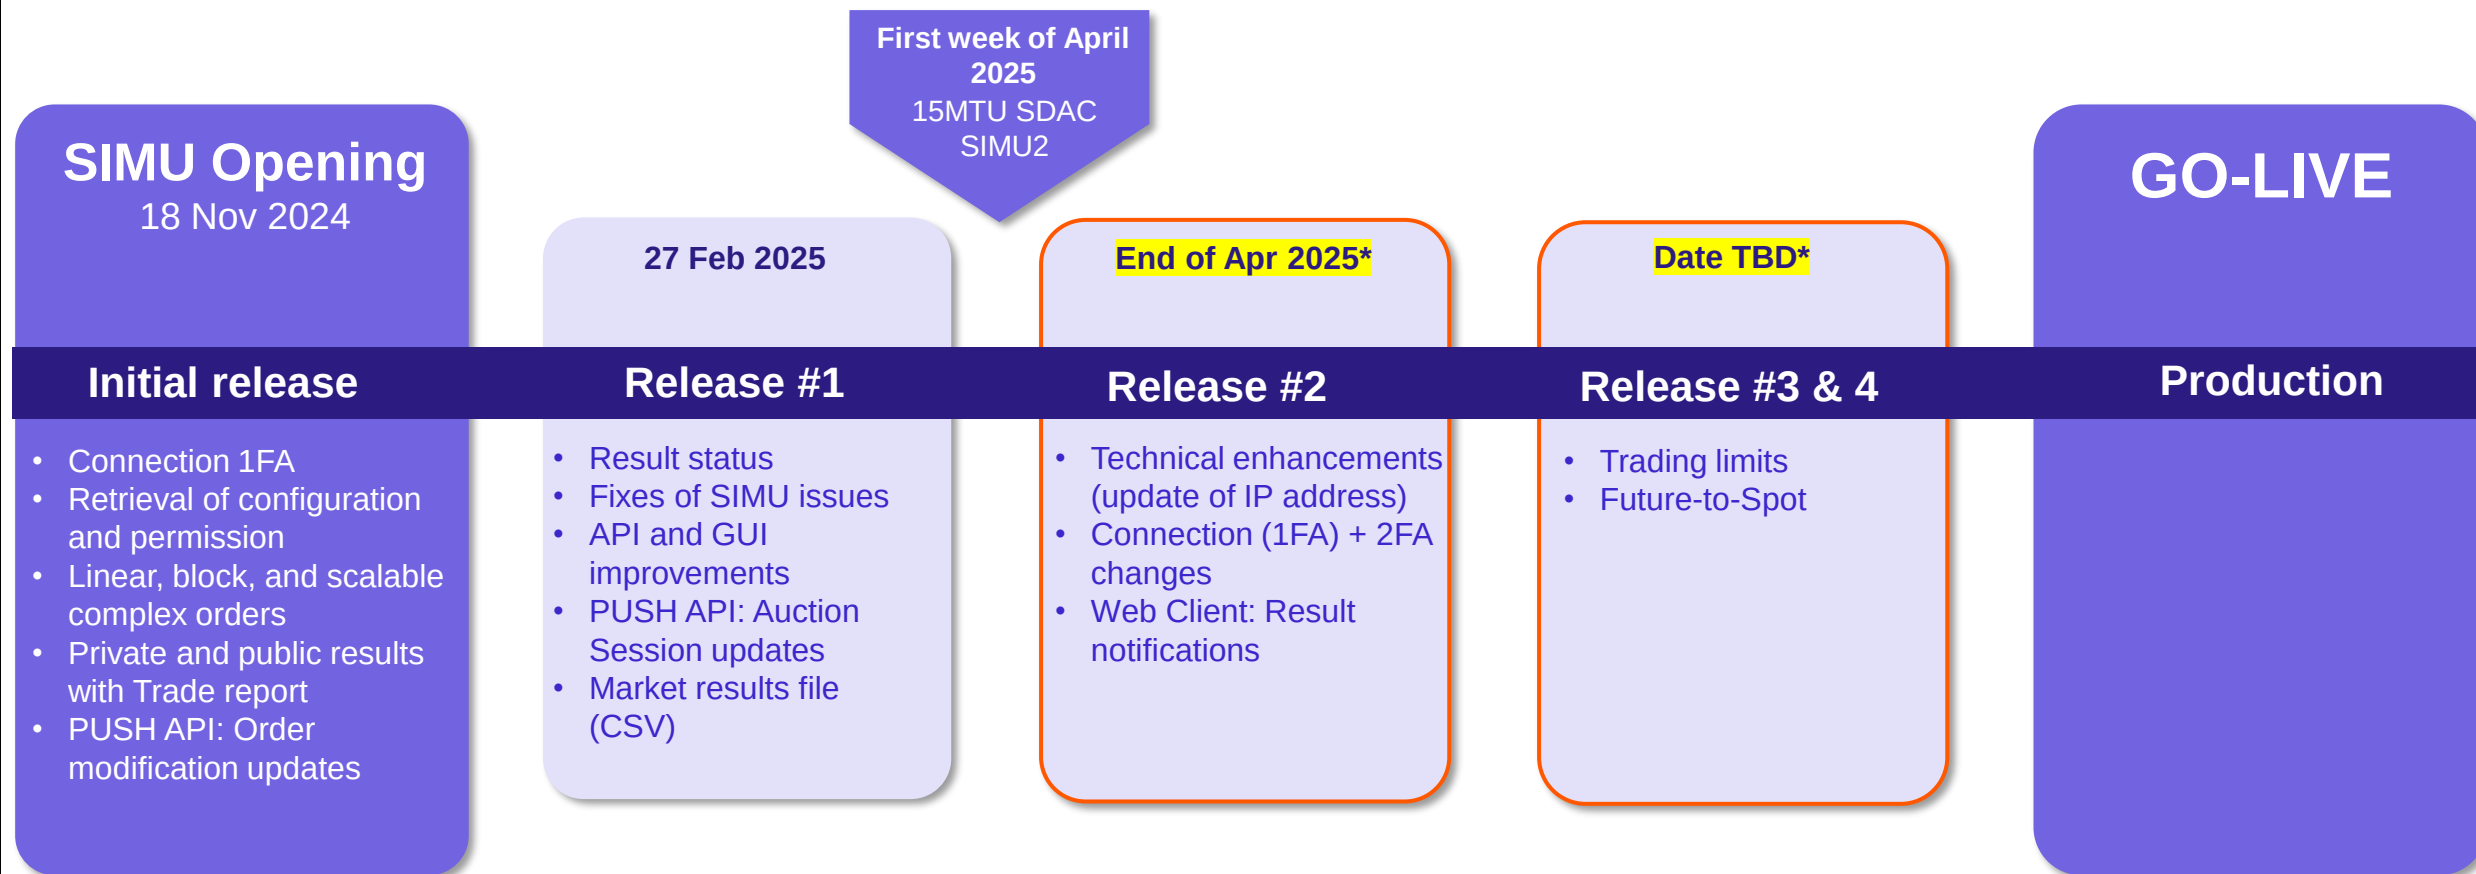

Timeline: 15MTU SDAC project and MATS

MATS Roadmap

The road towards delivery of MATS Go-live (subject to successful testing)

Clicking on a ‘stack’ of notifications, you can expand the list and view and/or hide all

Web Client Notifications

Notification Panel

The screenshot displays the epexspot web client interface. At the top, there's a navigation bar with 'mats', 'Order management', and 'Activity log' links. The 'epexspot' logo is on the right, along with a clock showing '11:28:36 CET' and a user profile icon 'RM'. Below the navigation bar, there's a 'Delivery date' section with a calendar icon and a date selector set to '18 June 2025'. The main content area is divided into two parts. On the left, there's a table of orders with columns for order type, product, time, status, and a 'View indexes' button. On the right, there's a 'Today's notifications' panel with a list of notifications, each with a 'View' link.

Order Type	Product	Time	Status	Action
GB-IDA2	PWR-SEM-GB-D	09:00 CET	Results published	View indexes
GB	PWR-GB-D+1	10:20 CET	Results published	View indexes
CH	PWR-CH-D+1	11:00 CET	OBK closed	
CORE	PWR-MRC-D+1	12:00 CET	OBK open	
NORDIC	PWR-MRC-D+1	12:00 CET	OBK open

Even after you 'hide' the notifications, you can still see them in the notification panel

Point of attention: This panel will be reset during night – you will only see notifications related to the given day

Web Client Notifications

Troubleshooting

The screenshot shows the epexspot web client interface. At the top, there is a navigation bar with 'mats SIMU', 'Order management', and 'Activity log' on the left, and 'epexspot' on the right. A red box highlights a 'LIVE UPDATES OFF' notification in the top right corner. Below the navigation bar, there is a section for 'Delivery date' set to '18 June 2025', with navigation buttons for '<', '>', and 'Today'. To the right of this are buttons for 'Auction date view', 'Delivery date view', 'Download template', and 'Import orders'. The main content area displays a table of auction results with columns for auction type, location, time, status, and auction date. The status column shows 'Results published' for the first two rows, 'OBK closed' for the third, and 'OBK open' for the remaining five rows.

Auction type	Location	Time	Status	Auction date
GB-IDA2	PWR-SEM-GB-D	09:00 CET/CEST	Results published	17 June
GB	PWR-GB-D+1	10:20 CET/CEST	Results published	18 June
CH	PWR-CH-D+1	11:00 CET/CEST	OBK closed	18 June
CORE	PWR-MRC-D+1	12:00 CET/CEST	OBK open	18 June
NORDIC	PWR-MRC-D+1	12:00 CET/CEST	OBK open	18 June
15-call-DE	PWR-15-call-DE-D+1	15:00 CET/CEST	OBK open	18 June
15-call-NL	PWR-15-call-NL-D+1	15:00 CET/CEST	OBK open	18 June
30-call-GB	PWR-30-call-GB-D+1	16:30 CET/CEST	OBK open	18 June
GB-IDA1	PWR-SEM-GB-D+1	18:30 CET/CEST	OBK open	18 June

In case that the Web Client get 'disconnected' from the PUSH server, you will see this information in the top bar.

Point of attention: PUSH mechanism / notifications work only for one tab.

Resolution of known issues

Following issues will be fixed in the upcoming release

Inconsistency between block order template and block order screen

Block Code	Block ID	BlockCodePRM	MAR	Comment	Price	1	2	3	4	5	6	7	8	9	10	11	12	13
------------	----------	--------------	-----	---------	-------	---	---	---	---	---	---	---	---	---	----	----	----	----

Block code	Block ID	BlockCodePRM	Comment	MAR	Price	Total	1	2	3	4	5	6	7	8	9	10	11	12	13
------------	----------	--------------	---------	-----	-------	-------	---	---	---	---	---	---	---	---	---	----	----	----	----

We will adjust the block order template to match the screen.

No results found

Try selecting a different auction from the auction name dropdown

Try selecting another date to see what other auction results have been published

As a temporary workaround, you can either refresh MATS or rely on the Market result report (csv).

Member Testing and Readiness

03

Member readiness testing

First scheduled testing sessions

- › We ran the first two organized testing sessions in the weeks of 24th and 31st of March.
- › Given the tight schedules between member readiness testing and SDAC 15MTU member testing, communication was perceived as bit of short notice, which is an area of improvement for us.

Upcoming scheduled testing sessions

- › We will communicate on the continuation of the member readiness testing sessions – they will be organized on Wednesdays in the future.
- › While **optional**, objective of these sessions is to give you an opportunity to ‘tick the boxes’ to secure your readiness and submit more realistic bids in the system (to also test our new business rules).

Self-paced testing is still there

- › Since SIMU opening, we have been running all auctions on daily basis (excl. weekend and public holidays) and this will continue until Go-live.

Conformance testing

- › Tune into our GoTo Session #6 on 29 April for further details.

MATS SIMU available on the weekends!

- › We heard your requests, and we will keep MATS SIMU* open over the weekends starting from this week.

*Only available to SIMU for now, not SIMU2

Member Readiness Criteria

We want to make sure you can:

- › Connect to the system with 1FA and (re-)set your password
- › Retrieve orders and necessary configuration information
- › Submit, modify, delete, export different order types and understand the key business rules differences
- › View / retrieve public and private results, download Trade Report
- › View Trading limits
- › Use the PUSH (if it is of interest to you)

Next elements to be delivered throughout SIMU:

Connection changes (1FA) *Planned in Release #2*
Second-factor authentication (2FA)

Future-to-Spot orders *Planned in Release #3*

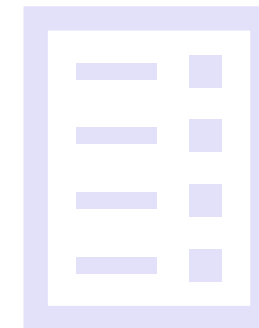

Market Results file *Delivered in Release #1*

Trading limits *Planned in Release #3*

We have started and will continue calling you directly. As it may take some time until we reach everyone, we kindly ask you to fill in already the member readiness FORM.
