The report contains the aggregated demand and supply curves for each quarter-hour of the respective IDA. TimeStepID refers to the exact quarter-hour, from 00Q1 to 23Q4. For IDA3, records start with 12Q1.

When opened as a spreadsheet the first column shows the number of the auction. The second and third columns indicate the date and time values. Columns with "Price" and "Volume" headers contain the values of the aggregated demand curve, and columns with "Price2" and "Volume3" headers contain the values of the aggregated supply curve.

IMPACT OF DST

- On the short clock change day, the quarter-hours 02Q1, 02Q2, 02Q3 and 02Q4 will not appear in the report, thus "01Q4" will be followed by "03Q1"
- On the long clock change day, 02Q1B, 02Q2B, 02Q3B and 02Q4B quarter-hour columns appear in the report, where TimeStepIDs are:
 - 02Q1B
 - 02Q2B
 - 02Q3B
 - 02Q4B
