AIB bids by the hour

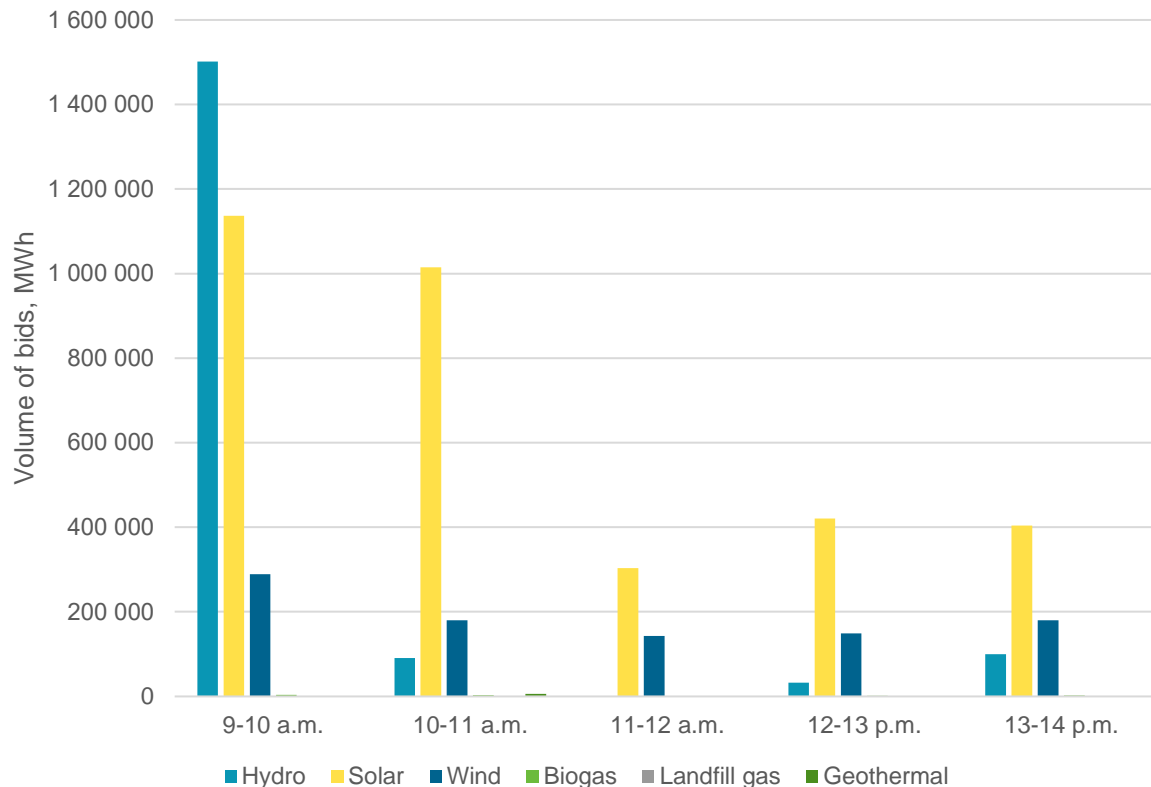

AIB bids by the hour and product

- Non-AIB bids are not included (there were only 2)
- Most of the bids were inserted in the first and last hour
- There was a „lunch break”
- Highest number of bids were for Solar
- Every AIB product was sold
- 86% of non-AIB product was sold

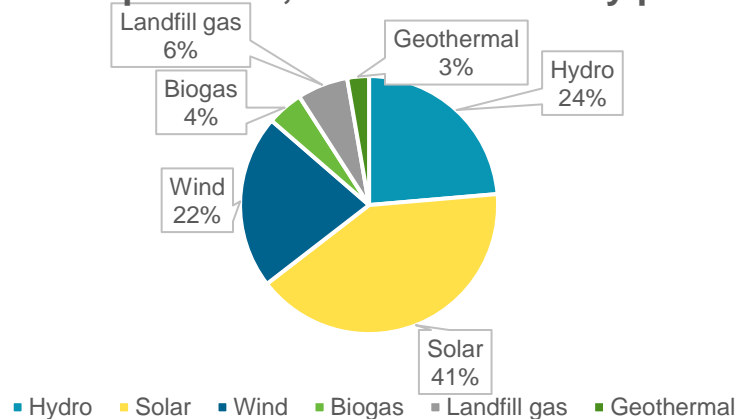

Inserted bids by the hour and product

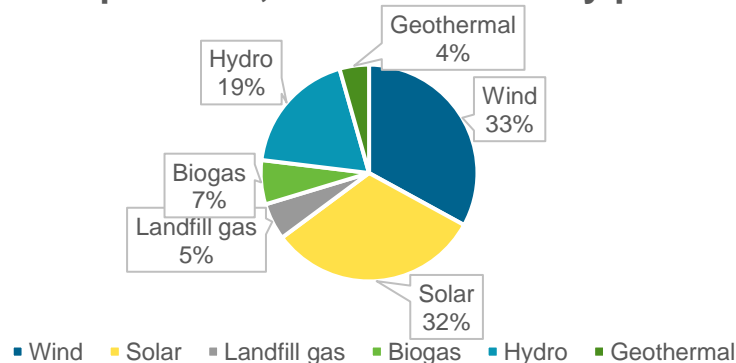

- The highest volume considering bids was for Hydro,
- Second highest was for Solar
- Solar had a more balanced trading throughout the auction

Mar-22 products, number of bids by products

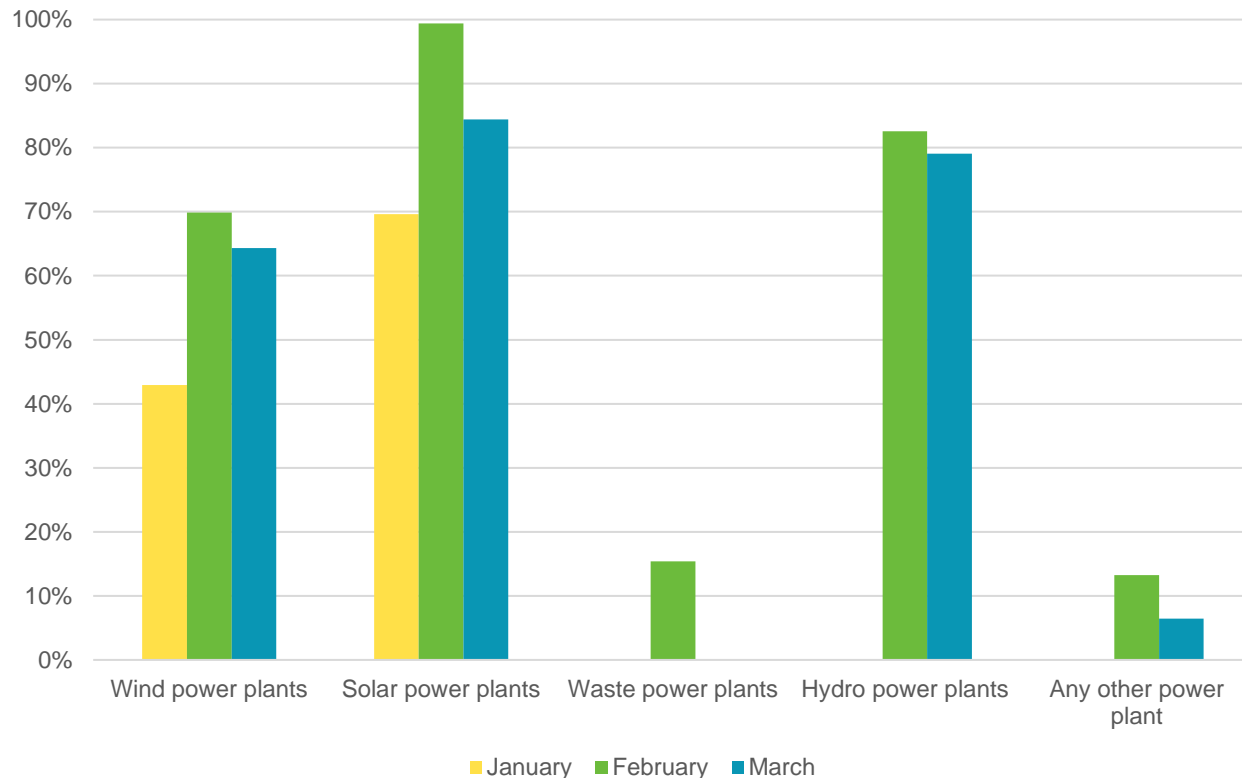

Feb-22 products, number of bids by products

- Both for February and March products Solar had the most orders inserted
- The second was Hydro in March and Wind for February

GOs sold vs. Total Hungarian renewable production

- For February and March, most Solar and Hydro renewable energy was converted into GO and bought during the Auction
- Wind was also a high percentage

THANK YOU FOR TRADING WITH US!
