Important information – Action required

- New ETS version 3.6.8 go-live on 29th March 2023, first Trading Date.
- ETS maintenance planned on 28th March 2023 as of 19:40 CET until 00:30 CET.
- New ETS client certificate: GlobalSign - Trusted Public Certificate.
- No impact on API
- For members using the Fixed version, the new version ETS 3.6.8 must be installed.

Dear HUPX Member,

We would like to share important information related to the **new ETS 3.6.8 version** that is planned **to go live on 29th March, First Trading Date** (subject to successful testing).

1. New ETS 3.6.8 client

The new ETS client will be available via the **ETS Simulation 2 environment as of 06th March 2023** (first Trading Date) for download on the HUPX website ([click here](#)).

The new client will be released into the Production environment during the maintenance **on 28th March 2023 (first trading date 29th March 2023)**.

Similarly, the release in Simulation 1 takes place as of 30th March.

The new client and the new client documents are available for download on the HUPX website.

For members using the **Upgradable version**, the new client will upgrade automatically to the latest ETS 3.6.8 version.

For members using the **Fixed version**, the new version ETS 3.6.8 must be downloaded and installed.

2. Trusted Public Certificate - GlobalSign

We would like to inform that there will be a change in the certificate authority of the ETS client. This will ensure security is compliant with the latest standards and best practices. We are changing the ETS certificate policy from an internally signed one to public trusted one under GlobalSign.

3. Connection settings – No changes

The connection settings will remain the same as today.
